## Agusta Westland 109S Grand

- **Up To 7 Passenger seats**
- **1-2 Flight Crew**
- **Twin Pratt and Whitney Turbine Engines**
- **ECS Air Conditioning System**
- **Cruise Speed > 140kts (260kmph)**
- **Excellent luggage space**
- **Leather interior**
- **Bose A30 Noise Cancelling Headsets**

The AgustaWestland AW109S Grand is a versatile and luxurious twin-engine helicopter renowned for its exceptional performance and comfort. Equipped with advanced avionics and safety systems, this aircraft is designed to provide a smooth and secure flying experience. With a spacious cabin featuring premium materials and a club seating layout, the AW109S Grand offers elite comfort for up to seven passengers. Its powerful engines deliver impressive speed and range, making it ideal for both short hops and long-distance journeys. Whether for VIP transport, or corporate endeavours the AgustaWestland AW109S Grand sets the standard for excellence in helicopter aviation.

## Bell 427

- **Up to 7 passengers**
- **1-2 Flight Crew**
- **Twin Pratt and Whitney Turbine Engines**
- **Comfortable Seating with ample headroom**
- **Cruise speed > 120 kts (220kmph)**
- **Excellent Luggage Space**
- **Leather Interior**
- **Bose A20 Noise Canceling Headsets**

The Bell 427 is a reliable and versatile twin-engine aircraft known for its exceptional performance and spacious cabin design. With a sleek exterior and advanced rotor system, the Bell 427 provides impressive speed, agility, and maneuverability, making it suitable for a wide range of missions, including corporate travel and utility operations. The spacious cabin accommodates up to seven passengers in luxurious comfort, featuring ergonomic club seating and panoramic windows for enhanced visibility. Equipped with state-of-the-art avionics and safety systems, the Bell 427 ensures a smooth and secure flying experience, even in challenging conditions.

## Airbus H130 (Eurocopter EC130)

- Up To 6 Passenger seats
- Safran Turbomeca Arriel 2B1 Turbine Engine
- Bose A20 Noise Cancelling Headsets
- Cruise speed > 120 kts (220kph)
- Ample Luggage Space
- Air Conditioning

The Airbus H130 (Eurocopter EC130) is a modern aircraft known for its spacious cabin, excellent visibility, and superior performance. Designed to accommodate up to six passengers in luxurious comfort, the Airbus H130 presents panoramic views through its large windows, providing an exceptional overall flight experience. Equipped with a powerful engine and advanced rotor system, this machine delivers impressive speed, agility, and range, making it ideal for various adventures including tourism, corporate travel, aerial photography and more. With a sleek design, advanced avionics, and proven reliability, the Eurocopter H130 sets a high bar for excellence in single-engine helicopter aviation.

## Eurocopter AS355 Twin Squirrel

- Up To 5 Passenger Seats
- Twin Allison 250 C20F Turbine Engines
- Bose X Noise Cancelling Headsets
- Cruise speed > 110 kts (200kph)
- Ample Luggage space
- Optional Dual Front Seat Configuration

The Eurocopter AS355 Twin Squirrel is a light twin-engine helicopter renowned for its reliability, performance, and adaptability. Designed to meet the demands of a variety of missions, the AS355 features an ample cabin capable of accommodating up to five passengers in comfort. Its twin-engine configuration provides added safety and redundancy, making it suitable for a wide range of operations including corporate transport, aerial filming, utility work and more. With powerful engines and tested avionics, the AS355 offers impressive speed, agility, and range, ensuring efficient and reliable performance in diverse environments and conditions. Trusted by operators worldwide, the Eurocopter AS355 Twin Squirrel continues to define superiority in twin-engine helicopter technology.

## ***Airbus H125 (Eurocopter AS350 Squirrel)***

- **Up To 6 Passenger Seats**
- **External load up to 900kg**
- **High Altitude Performance**
- **Cruise Speed > 120kts (220kmph)**
- **Ample Luggage Space**
- **Available in various configurations**

The Airbus H125 (Eurocopter AS350 Squirrel) has long epitomised excellence in helicopter services, combining unmatched performance, safety, and comfort to deliver memorable and exceptional experiences for passengers. Whether for business or leisure, this aircraft offers incomparable convenience, accessibility, and luxury, ensuring a journey that always exceeds expectations.

## ***Airbus H120 (Eurocopter EC120)***

- **Up To 4 Passenger Seats**
- **Turbomeca Arriel 1D1**
- **Bose Noise Cancelling Headsets**
- **Cruise Speed > 110kts (200kmph)**
- **Excellent Luggage Space**
- **Air Conditioning**

The Airbus H120 (Eurocopter EC120) represents a new age of single-engine helicopter technology, offering unmatched versatility, performance, and safety. The spacious cabin of the H120 offers ample room for up to four passengers, ensuring a comfortable and enjoyable flight experience. With large windows providing panoramic views, passengers can fully appreciate the beauty of their surroundings. Safety is paramount in the design of the H120. Featuring a modern fuel system, energy-absorbing seats, and a robust fenestron tail rotor, the H120 provides unmatched levels of protection for both crew and passengers.

## **Robinson R44**

- **Up To 3 Passenger Seats**
- **Lycoming IO-540 Piston Engine**
- **Bose Noise Cancelling Headset**
- **Cruise Speed > 90kts (160kmph)**
- **Emergency Water Pop-Out Floats**
- **Leather Interior**

The Robinson R44 is a respected helicopter known for its dependability and practical affordability. With its established reputation and versatility, the R44 provides a reliable solution at a reasonable cost. The R44's spacious cabin accommodates up to three passengers comfortably. Large windows offer expansive views, enhancing the overall flight experience to make a thoroughly enjoyable ride for all passengers.
